Gifts, Grants, and Contracts for September 2011

The following gifts, grants and contracts received by all campuses during the period September 1, 2011 through September 30, 2011 total $126,741,433. The unofficial FY 2012 year-to-date total is: $203,224,836.

Research

DA-Dept of Agriculture

Agriculture, Dept - Agricultural Research Svc-FED

Environmental Effects of Tephritid Fruit Fly Control and Management
Grace, Jack  Kenneth JR  College of Tropical Agriculture and Human Resources
The approach to this project is to address the development and evaluation of currently acceptable or novel non-toxic fruit fly control strategies such as classical biological controls, post-harvest treatments, and microbial control agents.

Improving Virus Resistance, Horticulture, and Shipping of Hawaiian Papaya
Grace, Jack  Kenneth JR  Department of Plant and Environmental Protection Sciences
To characterize transgenic line 63-1 for its potential as papaya ringspot virus resistant breeding stock and to characterize hybrids from transgenic SunUp and a nontransgenic Sunrise selection with excellent appearance and shipping quality.

Management and Control of Banana Bunchy Top Virus (BBTV) Through Resistant Cultivars
Grace, Jack  Kenneth JR  College of Tropical Agriculture and Human Resources
The overall objective of this cooperative research project is to minimize the impact of banana bunchy top virus.

Control of Minor Crop Pests and Diseases
Grace, Jack  Kenneth JR  College of Tropical Agriculture and Human Resources
The approach to this project is to address the development of economical and environmentally friendly pest and disease management strategies for Hawaii’s economically important and potentially important crops.

Acquisition of Goods and Services
Nagata, Russell T  College of Tropical Agriculture and Human Resources
Plot allocation fees and water usage at Waiakea, Volcano, Mealani, Lalamilo, and Kona experiment stations.

Developing Pest Ant Management Systems in Hawaii Nurseries
Duffy, David  C  Department of Botany
Develop pest management tools for Wasmannia auropunctata (Little Fire Ant) and other ant species in collaboration with commercial nurseries.

Development of Virus Resistant Plants
Shintaku, Michael H  College of Agriculture, Forestry-UHH
Gifts, Grants, and Contracts for September 2011

Research

DA-Dept of Agriculture

Agriculture, Dept - FED $140,000
Support for Agricultural Research of Mutual Interest, FY 2012
Straney, Donald O Chancellor, University of Hawaii at Hilo-UHH
Support for student assistants to participate in agricultural research activities

Agriculture, Dept - FED $39,397
Survey for Erwinia Chrysanthemi and Other Bacterial Pathogens on Vegetatively Propagated Ornamental Crops
Alvarez, Anne M Department of Plant and Environmental Protection Sciences
Surveys will be conducted in nurseries throughout the island of Oahu to reveal the prevalence of pathogenic bacteria in nursery planting stocks. Samples will be taken starting September 2011 and continue through June 2012. Reports will be provided as required.

Agriculture, Dept - FED $227,800
Adding Value and Controlling Pests and Diseases of Papaya
Grace, Jack Kenneth JR College of Tropical Agriculture and Human Resources
Develop and evaluate non-toxic, preferably biological-based, environmentally suitable technologies and processes for pest and disease control on papaya.

Agriculture, Dept - FED $174,987
Adding Value and Controlling Pests and Diseases of Papaya
Grace, Jack Kenneth JR College of Tropical Agriculture and Human Resources
Develop and evaluate non-toxic, preferably biological-based, environmentally suitable technologies and processes for pest and disease control on papaya.

Agriculture, Dept - FED $100,176
UHM-Collaborative Effort for Evaluating Regionally Based Feedstock and Co-Products for Aquaculture and Livestock
Grace, Jack Kenneth JR College of Tropical Agriculture and Human Resources
The main objective of this agreement is to evaluate the usefulness of regionally grown feedstock for aquaculture and livestock.

Agriculture, Dept - FED $49,519
Research on Transgenic Papaya to be Exported to Japan and Characterization and Preservation of Hawaiian Taro Cultivars
Steiner, William College of Agriculture, Forestry-UHH
Assess the impact labelling and marketing strategies deployed by HPIA (Hawaii Papaya Industry Assn) on the commercialization of the transgenic papaya in Japan and further characterize the native Hawaiian taro cultivars using molecular markers, and to develop genetic maps of 6 Hawaiian taro varieties and 2 ex-Hawaii strains.

Agriculture, Dept - Forest Service-FED $100,569
Effects of Mean Annual Temperature on Carbon Storage and Fluxes in Native Forests of Hawaii
Litton, Creighton Department of Natural Resources and Environmental Management
This research will examine how the components of carbon storage (GPP, carbon allocation, and carbon losses) respond to changes in mean annual temperature.
Gifts, Grants, and Contracts for September 2011

Research

DA-Dept of Agriculture

**Agriculture, Dept - Forest Service-FED**

*Climate Change Impacts on Hawaiian Biodiversity and Fresh Water Resources: Building Capacity for Research, Education, and Community-based Mitigation*

Bruland, Gregory Lee  
Department of Natural Resources and Environmental Management

The goal of this research is to understand how climate change, invasive species, and the interaction of the two stressors will impact the hydrological and ecological functions of Pacific Island streams and watersheds. Results will be shared via an integrated education and community-based outreach program.

**Agriculture, Dept - Forest Service-FED**

*Management Practices and Outcomes for Restoring Acacia koa and Sophora chrysophylla Forests to Abandoned Pastures and Degraded Forests of Hawaii*

Friday, James B  
Department of Natural Resources and Environmental Management

Our goal is to develop information to help Hawaii land managers restore upland forests. Our objectives are to determine long-term effects of thinning, fertilization, and weed control in koa forests; to determine realistic timber yield estimates for koa; to determine changes in carbon in aboveground biomass and in the soil.

**Agriculture, Dept - Forest Service-FED**

*Assessing the Effects of Fragmentation, Invasives Species and Climate Change on Forest Fragments*

Litton, Creighton  
Department of Natural Resources and Environmental Management

The proposed research aims to understand how fragmentation, climate change and other threats including invasive species (rats) modify forest structure, especially the formation and distribution of forest gaps, as well as productivity and carbon cycling.

**Agriculture, Dept - Forest Service-FED**

*Young-Growth Koa Wood Quality Assessment and Demonstration*

Friday, James B  
Department of Natural Resources and Environmental Management

Our project objectives are to assess koa wood quality in young, second-growth trees and demonstrate the wood properties to woodworkers. Our goal is to be able to give landowners and woodworkers the knowledge and information they need.

**Agriculture, Dept - Forest Service-FED**

*Integrated Weather/Fire Modeling Applications for Hawaii*

Chen, Yi-Leng  
Department of Meteorology

The purpose of this project is to investigate the feasibility and effectiveness of high resolution weather models as an alternative method of predicting weather conditions of interest to fire managers in tactical and strategic fire planning.

**Agriculture, Dept - Natl Institute of Food and Agriculture**

*Children's Healthy Living Program for Remote Underserved Minority Populations in the Pacific Region (CHIL)*

Novotny, Rachel  
Department of Human Nutrition, Food and Animal Sciences

The project aims to train a public health nutrition work force, conduct public health nutrition research, communicate nutrition- & Health-related information, develop nutritional monitoring & surveillance systems & incur environmental policy change to promote active play & intake of healthy food to prevent young child obesity in the Pacific Region.

**Agriculture, Dept - Natl Institute of Food and Agriculture**

*An Integrated Disease Management Program for Banana Industries in the Pacific Islands*

Wang, Koon-Hui  
Department of Plant and Environmental Protection Sciences

Develop an integrated disease management program for the banana industry in the Pacific Islands specifically targeting on Banana Bunchy Top Virus and plant-parasitic nematodes.
Gifts, Grants, and Contracts for September 2011

Research

DA-Dept of Agriculture

Agriculture, Dept - Natl Institute of Food and Agriculture
   An Integrated Disease Management Program for Banana Industries in the Pacific Islands
   Wang, Koon-Hui
   Department of Plant and Environmental Protection Sciences
   Develop an integrated disease management program for the banana industry in the Pacific Islands specifically targeting on Banana Bunchy Top Virus and plant-parasitic nematodes.

DHHS-Dept of Health and Human Services

Health & Human Svc, Dept - Natl Inst of Health (NIH)
   $226,375
   Analysis of the Hif1alpha-mediated Regulation of Telomerase and Telomeres in Stem Cells
   Allsopp, Richard
   Dept Anatomy, Biochemistry, Physiology and Reproductive Biol
   This study intends to rigorously assess, using appropriate animal modes, the potential of a newly discovered candidate regulator of telomerase levels in stem cells as a therapeutic target to treat diseases associated with telomerase defects.

Health & Human Svc, Dept - Natl Inst of Health (NIH)
   $720,185
   Cancer Research Center of Hawaii
   Carbone, Michele
   UH Cancer Center
   Assess current informatics systems at CRCH and develop an implementation plan for adopting in the three caBIG software bundles.

Health & Human Svc, Dept - Natl Inst of Health (NIH)
   $99,735
   Cancer Research Center of Hawaii
   Carbone, Michele
   UH Cancer Center
   Assess current informatics systems at CRCH and develop an implementation plan for adopting in the three caBIG software bundles.

Health & Human Svc, Dept/ACF - Adm for Native Amer
   $306,754
   Ka Olelo Oiwi: Hawaiian Oral Language Development Project
   Housman, April
   Ka Haka'Ula O Ke'Elikolani-UHH
   Develop the oral language abilities of Hawaiian Language Immersion Program (HLIP) grades K-6 students at 15 schools on 5 islands.

Health & Human Svc, Dept/NIH - Natl Cancer Institute
   $542,939
   Hawaii Minority-Based Community Clinical Oncology Program
   Berenberg, Jeffrey
   UH Cancer Center
   This award will provide funding to allow minority and underserved populations in Hawaii receive state-of-the-art cancer treatment and to participate in cancer prevention and control studies.

Health & Human Svc, Dept/NIH - Natl Cancer Institute
   $344,827
   Obesogenic Environment: Impact on Breast, Colorectal, and Prostate Cancer Risk
   Cheng, Iona
   UH Cancer Center
   We will obtain information on the neighborhoods of ~82,000 African Americans and Latinos using geographic information systems technology. We will investigate whether neighborhood characteristics related to obesity influence on breast, colorectal, and prostate cancer risk.
Gifts, Grants, and Contracts for September 2011

Research

DHHS-Dept of Health and Human Services

Health & Human Svc, Dept/NIH - Natl Cancer Institute
Patterns of Care/Quality Care Diagnosis Year 2010
Goodman, Marc T  UH Cancer Center
Evaluate treatment patterns specifically for breast, colorectal, and non-small cell lung cancer.

Health & Human Svc, Dept/NIH - Natl Inst of Genl Med Sci
RSK2 Regulates Integrin-Mediated Adhesion and Migration
Ramos, Joe William  UH Cancer Center
This work is focused on understanding how cell migration and cancer metastasis are controlled by the protein RSK2.

Health & Human Svc, Dept/NIH - Natl Inst of Neurological Disordr & Stroke
Imaging Studies in Neurotoxicity and Neurodevelopment
Chang, Linda  Department of Medicine
To establish the infrastructure for a strong neuroscience research environment at JABSOM. The proposed projects will evaluate changes in higher cortical function and neurochemistry in individuals infected with HIV and in relation to substance-dependence, determine the physiological bases of these brain changes, and evaluate possible neurochemical changes.

Health & Human Svc, Dept/NIH - Natl Inst on Aging
Hawaii Family Study of Cognition (HFSC)
Onoye, Jane  Department of Psychiatry
The Hawaii Family Study of Cognition (HFSC) will recruit previous participants and referred offspring of families of families from the original study who have indicated they are interested in a follow-up study of re-testing.

DOC-Dept of Commerce

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA)
Development of Validation Protocols for Vegetation Index Time Series from VIIRS
Miura, Tomoaki  Department of Natural Resources and Environmental Management
This project is aimed at developing protocols for validating satellite-measured vegetation greenness and at evaluating the algorithm used to generate this greenness measure.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA)
Enhancement of Data and Research Activities for Climate Studies at the International Pacific Research Center
Hamilton, Kevin P  Joint Institute for Marine and Atmospheric Research
The project enhances the activities at the Asia-Pacific Data Research Center (APDRC) within the International Pacific Research Center (IPRC) at the University of Hawaii. Activities include web-based access to a broad range of ocean, atmosphere, and sea flux ad products for climate studies.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA)
Protected Resources Environmental Compliance Initiative (PRECI)
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To establish & Maintain enhanced management based on scientific research for protected resources. Research conducted will be used to assist resource managers in decision making & directing further investigation in habitat & protected species, enhance interagency cooperation, conduct research, outreach & education.
Gifts, Grants, and Contracts for September 2011

Research

DOC-Dept of Commerce

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $266,709

Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
A data set will be assembled that will include the atmospheric measurements currently being conducted at Mauna Loa Observatory and the mercury measurements.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $148,500

Sea Turtle Bycatch and Mitigation: Research and Development
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To develop strategies to reduce sea turtle bycatch and improve target selectivity of coastal gillnet fisheries, poundnets and longline fisheries. To also understand their post-release behaviors and migrations.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $250,000

ADMB Open Source Project
Sibert, John R  Joint Institute for Marine and Atmospheric Research
To continue in developing protocols for maintaining a source code repository and producing binary distributions, and for testing and distributing the AD Model Building (ADMB) software across multiple platforms, operating systems and compilers for fishery and natural science modeling use.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $227,228

Profiling CTD Float Array Implementation and Ocean Climate Research
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
1) To support the profiling CTD floats through testing, development, and management of a subset of these floats.
2) To perform scientific analysis including estimates of ocean heat variability using the float and other data.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $1,771,000

The University of Hawaii Sea Level Center
Merrifield, Mark A  Joint Institute for Marine and Atmospheric Research
The University of Hawaii Sea Level Center (UHSLC) collects, processes, analyzes, and distributes tide gauge data from around the world in support of climate and oceanographic research.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $200,000

Human Dimensions of Fishing and Marine Ecosystems in the Western Pacific
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To collect and analyze sociocultural information relevant to fisheries management priorities and plans in the Western Pacific region.

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $115,790

Pacific Islands Region Outreach and Education Program
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To plan, develop, and implement outreach and education programs in partnership with the Joint Institute for Marine & Atmospheric Research and the NOAA Fisheries Service Pacific Islands Region.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc $200,000

Joint Institute for Marine and Atmospheric Research
Merrifield, Mark A  Joint Institute for Marine and Atmospheric Research
Research institute created through a Memorandum of Understanding between the National Oceanic and Atmospheric Administration (NOAA) and UH, to develop a center of excellence in research in oceanographic and
Gifts, Grants, and Contracts for September 2011

Research

DOC-Dept of Commerce

atmospheric sciences. Research will be conducted at various locations. Therefore, specific indirect cost rates, locations, certifications and attachments are not addressed here but will be addressed at the time each proposal is

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $455,000
Marine Resource Dynamics Assessment Program (MARDAP): Stock Assessment Research Program
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To assess (1) the status of billfish, tuna, sharks, opah, bottomfish, coral reef fish and lobster stocks in the Western and Central Pacific Ocean, (2) impacts of fishing on these stocks.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $3,500,000
Sustaining Healthy Coastal Ecosystems (JIMAR Coastal Research Program)
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
This project will support multi-disciplinary efforts to assess, monitor, map, restore, and protect coral reef ecosystems of the U.S.-affiliated Pacific Islands.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $217,323
Pelagic Fisheries Research Program
Weng, Kevin  Joint Institute for Marine and Atmospheric Research
These funds will cover various topics of continuing project research focusing on Pacific pelagic species.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $440,700
Fisheries Oceanography: Protected Species Research Program
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To conduct research on Pacific Islands area protected species populations, their ecology, and relationships to environmental and oceanographic parameters.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $102,000
Main Hawaiian Islands Deep 7 Bottomfish Fast Track Project
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To assist the HI Department of Land and Natural Resources, Division of Aquatic Resources in collecting and processing Deep 7 bottomfish data obtained from commercial fishermen.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $129,163
Ocean Remote Sensing
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To achieve and promote the integration of available satellite remote sensing oceanographic datasets for all users.

Commerce, Dept/NOAA - Natl Marine Fisheries Svc  $137,870
Marine Resource Dynamics and Assessment Program (MARDAP) - Economics of Fisheries Initiative
Schroeder, Thomas A  Joint Institute for Marine and Atmospheric Research
To support or create economic data collection and assessment programs for commercial and recreational fishes in Hawaii, Am Samoa, and CNMI. To prepare publications for the Catch Share Workshop.
Gifts, Grants, and Contracts for September 2011

Research

DOC-Dept of Commerce

Commerce, Dept/NOAA - Natl Marine Fisheries Svc
Western Pacific Fishery Information Network Project (WPacFIN) $360,000
Schroeder, Thomas A
Joint Institute for Marine and Atmospheric Research
Provide technical and operational support to participating fisheries agencies in Am Samoa, HI, Guam, and CNMI.
Supply fisheries data and information to JIMAR, UH, NMFS, and the Western Pacific Fisheries Management Council

Commerce, Dept/NOAA - Natl Weather Service
National Weather Service Pacific Region Fellowship Program (Supplement) $165,329
Schroeder, Thomas A
Joint Institute for Marine and Atmospheric Research
Funds will be used to support students and infrastructure within the department of Meteorology, Oceanography (marine applications) and Geology & Geophysics (hydrology).

DOD-Department of Defense

Defense, Dept - Air Force
Operations and Management of the Maui Supercomputing Center $205,000
Lassner, David K
Information Technology Services
Cost reimbursement award term contract for research, development, operations and management of the Maui Supercomputing Center.

Defense, Dept - Air Force
Operations and Management of the Maui High Performance Computing Center $100,000
Lassner, David K
Information Technology Services
Cost reimbursement award term contract for research development, operations and management of the Maui High Performance Computing Center.

Defense, Dept - Air Force
Operations and Management of the Maui High Performance Computing Center $3,861,653
Lassner, David K
Information Technology Services
Cost reimbursement award term contract for research development, operations and management of the Maui High Performance Computing Center.

Defense, Dept - Air Force
Correlation of Field and Laboratory Studies on the Corrosion of Various Alloys in a Multitude of Hawaii Micro-Climates $500,000
Hihara, Lloyd H
Department of Mechanical Engineering
Conduct research in performance of metal alloys and corrosion sensors in various microclimates in Hawaii.

Defense, Dept - Air Force Space & Missile Syst Ctr
LEONIDAS: Low-Earth Orbit Nanosat-Integrated Defense Autonomous Systems $4,500,000
Flynn, Luke Paul
Hawaii Institute of Geophysics and Planetology
The LEONIDAS project will design, build, test, launch, and operate small spacecraft in low-Earth orbit.
Gifts, Grants, and Contracts for September 2011

Research

DOD-Department of Defense

Defense, Dept - Army

Native Habitat and Wildlife Protection at Pacific Missile Range Facility, Kauai
Duffy, David C
Department of Botany

Provide technical assistance to the Navy for native habitat protection at the Pacific Missile Range Facility on Kauai.

Defense, Dept - Army

Rare Plant Propagation and Database Management
Kaneshiro, Kenneth Y
Pacific Biosciences Research Center

Provide personnel, management, transportation, etc. to propagate rare native Hawaiian Plants and provide database management services to the Army DPW Natural Resources Program on the Island of Oahu.

Defense, Dept - Army

Rare Plant Propagation and Database Management
Kaneshiro, Kenneth Y
Pacific Biosciences Research Center

Provide personnel, management, transportation, etc. to propagate rare native Hawaiian Plants and provide database management services to the Army DPW Natural Resources Program on the Island of Oahu.

Defense, Dept - Army

Investigation of Historical Rainfall Trends and Possible Future Changes in the Frequency of Extreme High and Low Rainfall in Hawai`i
Giambelluca, Thomas W
Department of Geography

In the proposed study, we will investigate how rainfall in Hawai`i has changed in the past century and how it is likely to change during the current century as global warming affects the regional climate.

Defense, Dept - Army

Evaluation of Groundwater Hydrology within the Humu'ula Saddle Region of the Island of Hawaii on Army Garrison Hawaii Pohakuloa Training Area
Thomas, Donald M
Hawaii Institute of Geophysics and Planetology

Assess and evaluate groundwater resources and condition within the Humu'ula Saddle at the Pohakuloa Training Area

Defense, Dept - Dep Under Secy of Defense

Managing Partner of Pacific Disaster Center
Gaines, James R
Vice President for Research

This Cooperative Agreement provides for the transfer of Federal funds for the evolvement of the Pacific Disaster Center into a public-private partnership benefiting from shared responsibilities and assistance from the Department of Defense and the Managing Partner (recipient) with its internal management, administration, and development of concepts as proposed by the Recipient on August 17, 2009 in response to Funding Announcement HQ0034-09-RFCA-3001 and accepted by the Government.

Defense, Dept - Dep Under Secy of Defense

Managing Partner of Pacific Disaster Center

Gaines, James R  Vice President for Research
$319,839
This Cooperative Agreement provides for the transfer of Federal funds for the evolution of the Pacific Disaster Center into a public-private partnership benefiting from shared responsibilities and assistance from the Department of Defense and the Managing Partner (recipient) with its internal management, administration, and development of concepts as proposed by the Recipient on August 17, 2009 in response to Funding Announcement HQ0034-09-RFCA-3001 and accepted by the Government.

Defense, Dept - Naval Postgraduate School
Retrodirective Antenna Arrays for Secure Data Transmission in Covert Terrestrial and Nanosatellite Sensor Networks
Shiroma, Wayne Akira  Department of Electrical Engineering
$188,000
Design and fabrication of tunable antennas and devices for sensing applications.

DOE-Dept of Energy

Energy, Dept - FED
The Effect of Airborne Contaminants on Fuel Cell Performance and Durability
St-Pierre, Jean  Hawaii Natural Energy Institute
$436,408
The objective of the proposed work is to characterize, analyze, and understand the effects of airborne contaminants which have the potential to reduce the performance of durability of proton exchange membrane (PEM) fuel cells.

Energy, Dept - FED
Collaborative Project: Ocean-Atmosphere Interaction From Meso- to Planetary-Scale: Mechanisms, Parameterization, and Variability
Schneider, Niklas  Department of Oceanography
$76,847
Investigate the dynamics of mid-latitude frontal scale air-sea interaction and the impact on climate.

DOI-Dept of Interior

Interior, Dept - National Park Service
Monitor and Protect Newly Discovered Hawksbill Turtle Nesting Beaches
Duffy, David C  Department of Botany
$41,077
Collect baseline data and monitor hawksbill turtles at newly discovered nesting beaches at Kahakahakea, Pohue Bay, Awili Point, and Manuka, and identify and control adverse effects on the nesting habitat.

Interior, Dept - National Park Service
Fire Restoration Ecology Study in Lowland Grasslands
Daehler, Curtis C  Department of Botany
$55,000
Document fire effects on the lowland pili (Heteropogon contortus) grassland community in Hawaii Volcanoes National Park.

Interior, Dept - National Park Service
Vegetation Inventory and Monitoring Support
Hart, Patrick  Natural Sciences-UHH
$134,813
Support for UH Hilo to build their vegetation ecology program by assisting the NPS with the vegetation mapping inventory and the initial implementation of vegetation protocols.
Gifts, Grants, and Contracts for September 2011

Research

DOI-Dept of Interior

Interior, Dept - National Park Service $23,145
  Documentation for the National Historic Landmark Nomination and Cultural Landscape Report, Kalaupapa National Historic Park
  Chapman, William R Department of American Studies
  Update of the 1976 "Kalaupapa Leprosy Settlement" National Historic Landmark Nomination and preparation of Cultural Landscape Report for the Kalaupapa and Kalawao Settlement. Students work to supplement or generate new information required to complete documentation, develop a format for recording and tracking information for contributing resources within the district, GPS recording and mapping of resources.

Interior, Dept - National Park Service $72,634
  Landbird Monitoring Implementation
  Hart, Patrick Natural Sciences-UHH
  Implement the protocol that describes procedures to be used to determine the status and trends of forest birds in selected habitats in Hawaii Volcanoes Nat Park (HAVO), Haleakala NP, and National Park of Am Samoa

Interior, Dept - National Park Service $190,568
  Evaluate Eradication and Containment Strategies for Nonnative Plant Infestations
  Duffy, David C Department of Botany
  Conduct removal experiments to eradicate localized weed infestations and contain moderate alien weed infestations in Hawaii Volcanoes National Park.

Interior, Dept - U.S. Fish & Wildlife Service $979,820
  Plant Extinction Prevention Program
  Morden, Clifford W Department of Botany
  Preserve samples of endangered native plant species while attempting to preserve wild specimens within their natural habitats.

Interior, Dept - U.S. Fish & Wildlife Service $99,000
  Project Support for Maui and Molokai Invasive Species Committee
  Duffy, David C Department of Botany
  Conduct early detection research and investigate strategies for high risk invasive species.

Interior, Dept - U.S. Fish & Wildlife Service $50,000
  Project Support for Big Island Invasive Species Committee
  Duffy, David C Department of Botany
  Conduct early detection research and investigate strategies for high risk invasive species.

Interior, Dept - U.S. Fish & Wildlife Service $90,000
  Conservation Biology of Federally Endangered Hawaiian Tree Snails
  Hadfield, Michael G Pacific Biosciences Research Center
  Continue conservation effort of endangered Hawaiian tree snails; support tree snail propagation laboratory; monitor residual populations on Oahu; survey new Oahu mountain areas lacking recent surveys; conduct surveys & status analyses of endemic species on Molokai, Maui, Lanai and Hawaii.
Gifts, Grants, and Contracts for September 2011

Interior, Dept - U.S. Fish & Wildlife Service

Synergistic Impact of Global Warming and Ocean Acidification on Coral Metabolism in Shallow and Deep Environments

Jokiel, Paul L

Hawaii Institute of Marine Biology

This project involves laboratory experiments to understand global climate change on reef corals with an emphasis on ocean acidification, warming, and irradiance through a series of experiments using both shallow and deep water corals.

Interior, Dept - U.S. Geological Survey

HCSU Unit Support & General Activities 2009

Ziegler-Chong, Sharon

Pacific Aquaculture-UHH

Support research programs of the USGS BRD PIERC related to the ecological, environmental and sociocultural management of natural and cultural areas and other components of DOI agencies.

Interior, Dept - U.S. Geological Survey

Developing accurate survey methods for estimating population sizes and trends of the critically endangered Nihoa Millerbird and Nihoa Finch

Ziegler-Chong, Sharon

Pacific Aquaculture-UHH

HCSU support staff to work on collaboration research with USGS PIERC focused on determining more accurate ways of measuring and monitoring population sizes and trends of Nihoa Finch and Millerbird.

Interior, Dept - U.S. Geological Survey

Ecohydrological Field Research in Hawaii

Giambelluca, Thomas W

Department of Geography

We will maintain the HaleNet system on Maui, consisting of 9 active climate stations, two repeaters, and a base station. On Hawaii Island, we will operate two advanced flux towers measuring energy, water, and carbon exchanges over one native forest site and one strawberry guava-invaded site.

Interior, Dept - U.S. Geological Survey

Assessing the Quality of Koa Reforestations as Habitat for Hawaii's Forest Bird Community

Ziegler-Chong, Sharon

Pacific Aquaculture-UHH

Collaborative research with USGS PIERC focused on habitat assessment and utilization studies of koa reforestations by native and introduced birds.

Interior, Dept - U.S. Geological Survey

Development of Biological Data Resource

Ziegler-Chong, Sharon

Pacific Aquaculture-UHH

HCSU support staff to work on collaborate research with USGS PIERC focused on working with National Park to develop an early detection system for invasive plants.

Interior, Dept - U.S. Geological Survey

Population Trends, Distribution, and Insect Prey Base of the Hawaiian Hoary Bat

Ziegler-Chong, Sharon

Pacific Aquaculture-UHH

Fully gather information needed for the re-evaluation of the conservation status of the Hawaiian hoary bat.
Gifts, Grants, and Contracts for September 2011

Research

ED-Dept of Education

Education, Dept - FED $498,763
Accessible Professional Development for Teaching Aquatic Science Inquiry
Duncan, Kanesa Curriculum Research and Development Group
We propose to develop and evaluate a professional development (PD) series of modules and online learning community support that use instructional inquiry - learning about science by engaging in the practice of science. The PD will be developed around aquatic science content and tested throughout the state of Hawaii.

Education, Dept - FED $199,997
Hitchcock: TeenACE for Science: Improving Outcomes Through Technology
Hitchcock, Caryl Center on Disability Studies
TeenACE for Science is a development project that will examine strategies to improve writing in science through technology. Participants are young teens with disabilities or English Language Learners whose difficulty with reading and writing impacts their ability to learn.

Education, Dept - FED $596,412
Project Ho`oku`i
Roberts, Kelly D Center on Disability Studies
Project Ho`oku`i will increase the number of Native Hawaiian high school students, who are able to acquire additional high school credits toward graduation and meet the academic qualifications to enroll in college classes as part of their high school coursework.

Federal Agencies

Environmental Protection Agency $17,000
EPA STAR Graduate Fellowship for Daniel Amato
Smith, Celia M Department of Botany
The purpose of this study is to investigate the extent and impact of sewage pollution on Hawaii's coastal reefs. Using an interdisciplinary approach, the connection between terrestrial sewage injection, groundwater, and coral reef health will be examined.

Environmental Protection Agency $7,540
EPA STAR Graduate Fellowship: Wendy Miles
Suryanata, Krisnawati Department of Geography
The project examines the potential socio-economic impacts to local people of the CO2 commoditization in climate change negotiations. It is a multi-level (Local to international) case study of a REDD (Reduced Emissions from Deforestation and Forest Degradation) project in Indonesia.

Homeland Security, Dept - FED $387,692
ARI-MA: Nuclear Materials Detection via Time-Encoded Differential Absorption and/or Differential Fluorescence
Madey, John M J Department of Physics and Astronomy
Proposed research is to develop and demonstrate an improved method for detection of fissible materials using techniques adapted from Laser Radar Systems and High Energy Physics, shifted to gamma ray energies as required for detection of small, concealed quantities of Uranium and Plutonium.

Homeland Security, Dept - FED $599,578
The National Center for Island, Maritime and Extreme Environment Security (CIMES)

The National Center for Island, Maritime and Extreme Environment Security (CIMES)
Gaines, James R Vice President for Research
The goal of this Center of Excellence is to develop leading-edge, multi-institutional, focused education and basic research program capable of delivering the scientific advances necessary to permit revolutionary improvements in America's ability to protect its citizens, infrastructure, economy, and environment in the Maritime, Remote Island, and Extreme Environment domain.

Homeland Security, Dept - FED $174,820
ARI-MA Improved Detection of Fast Neutrons and Special nuclear Material (SNM)
Vahsen, Sven E Department of Physics and Astronomy
Investigate a new approach to fast neutron detection that utilizes 2 new detector technologies: gas electron multipliers and silicon pixel electronics.

Homeland Security, Dept - FED $154,579
Use of Laser Cooling to Extend the Peak Current and Duty Cycle of Microwave Thermionic Guns
Madey, John M J Department of Physics and Astronomy
The proposed research will explore the use of laser-induced cooling of the surface of the lanthanum hexaboride cathodes used in the accelerator system being used for the research funded.

Hawaii- Business and Other

Research Corporation, University of Hawaii $10,000
Developing a Standardized `Opihi Monitoring Protocol
Toonen, Robert J Hawaii Institute of Marine Biology
Support for the training, data collection, analysis and archiving of `opih monitoring data through the PMNM partnership with local communities across the state.

Hawaii- Government Agencies

Agriculture, Dept - HI $228,800
Research and Management of the Varroa Mite and Other Bee Pests in Hawaii
Duffy, David C Department of Botany
Collaborate with HDOA, USDA and outside experts to develop a statewide strategic plan to deal with the varroa mite and other pests threats to Hawaii's honeybees.

County of Hawaii $5,000
Coastal Wetland Soil Research
Mathews, Bruce W College of Agriculture, Forestry-UHH
To better develop a comprehensive understanding of soil biogeochemical processes controlling soil mineral solubility, water quality, and forage nutritive value in Hawaii's wetlands.
Gifts, Grants, and Contracts for September 2011

Research

Hawaii- Government Agencies

County of Hawaii

Beekeeping Practices Booklet
Tsutsumi, Lorna H College of Agriculture, Forestry-UHH
Develop an updated educational booklet on beekeeping practices in Hawaii.

Health, Dept - Alcohol & Drug Abuse Div-HI

Tobacco Sales Enforcement to Synar Amendment
Steffen, Alana D UH Cancer Center
Provide technical assistance to support county Police Departments in their operations to enforce HRS 709-908. This involves recruiting and training teams of adults and volunteer minors in police operations, scheduling, and coordination of support activities. Inspection data will be collected and reported.

Health, Dept - HI

Concussion Management Protocol for Interscholastic Student/Athletes in Hawaii High Schools
Murata, Nathan M Kinesiology and Leisure Science Department
This project will develop a standardized protocol using technology (concussion management software) to identify and diagnosis concussions and in assisting in determining an athlete's ability to return to play safely. This protocol would help reduce the inconsistencies in identifying and diagnosing concussions in athletes.

Health, Dept - HI

Hawaii Health Data Warehouse
Maddock, Jason E. Department of Public Health Sciences and Epidemiology
This project gathers, analyzes, and reports on public health data in collaboration with the Hawaii Department of Health.

Land & Natural Res, Dept - Div of Forestry & Wildlife-HI

Hawaiian Ecosystems: Management and Education: Koolau Watershed
Duffy, David C Department of Botany
Monitor game check stations and run transects in native forest areas to determine impacts of pigs and axis deer in the Koolau Watershed in Maui.

Land & Natural Res, Dept - HI

Invasive Plant ARRA Support
Duffy, David C Department of Botany
Conduct surveys and control of invasive plants in Hawaii's state forest reserves on Kauai and Oahu.

Transportation, Dept - HI

Reducing Infrastructure Damage by Trees
Kaufman, Andrew J Department of Tropical Plant and Soil Sciences
The goal of this project are to develop root zone strategies for the planting and maintenance of Hawaii’s most popular street trees; and in developing better root zone strategies to assist in reducing infrastructure damage and maintenance.
Gifts, Grants, and Contracts for September 2011

Research

Hawaii- Non-Profit Organizations

Friends of Waikiki Aquarium $11,083
  Removal of Invasive Algae from Waikiki and Replanting Natives
  Smith, Celia M Department of Botany
  Quarterly cleanups of three invasive alien algae will be run, removing biomass by hand and composting biomass with a new partner, the Honolulu Zoo. Replanting activities will test ideas for the scale and techniques necessary to restore the coastal reef flat to a more natural species assemblage.

HCF-Koaniani Fund $25,787
  Hawaii Water Policy Study
  Coffman, Makena Department of Urban and Regional Planning
  The project will conduct a background study on fresh water policy in Hawaii that will help inform the non-profit sector, philanthropic entities, and decision makers about current fresh water policy in Hawaii and opportunities to improve water supply.

HCF-Leahi Fund $48,020
  New Drugs from the Sea: Screening Microbial Extracts from Hawaiian Water for Anti-Respiratory Viral Therapy
  Lu, Yuanan Department of Public Health Sciences and Epidemiology
  To use established in vitro cell culture assays to test and screen different extracts from marine microorganisms isolated from Hawaiian waters for their potential therapeutic effect against human respiratory viruses including respiratory syncytial virus, parainfluenza virus, and influenza virus.

Hawaii Community Foundation (HCF) $50,000
  The Role of CD43 in Macrophage-Mediated Atherosclerosis
  Boisvert, William Department of Medicine
  This proposal will study the role of a cell surface molecule called CD43 in macrophage-mediated atherosclerosis. The major goal is to investigate how CD43 affects macrophage function and how these changes in macrophage function in turn affect the development of atherosclerosis.

Hawaiian Silversword Foundation $55,850
  Conservation Work at Keauhou/Kilauea and North Kona
  Morden, Clifford W Department of Botany
  Continue forest restoration research and management at Keauhou Ranch, Kilauea Forest, and north Kona on the island of Hawaii.

Oceanic Institute - Ctr for Tropical & Subtrpcl Aquaculture (CTSA) $36,030
  Culturing Native Species of Macroalgae in Hawaii and the US Affiliated Pacific Islands
  Haws, Maria C. Pacific Aquaculture-UHH
  Focus on developing culture methods for two species of native seaweeds, Asparagopsis taxiformis (limu kohu) and Codium edule (limu wawae'iole)

Oceanic Institute - Ctr for Tropical & Subtrpcl Aquaculture (CTSA) $38,553
  Assessing Hawaii's Aquaculture Farm and Industry Performance
  Leung, Ping Sun Department of Molecular Biosciences and Bioengineering
  This proposed research will evaluate the economic performance of the aquaculture industry and its sub-sectors with respect to its profitability and efficiency/productivity using the census of Agriculture data for the years 1997, 2002 and 2007.
Gifts, Grants, and Contracts for September 2011

Research

Hawaii- Non-Profit Organizations

Pacific Health Research & Education Institute

Reducing Cost-Related Medication Nonadherence in Persons with Diabetes
Juarez, Deborah T  College of Pharmacy-UHH
Evaluate the impact of a web-based prescribing tool on medication adherence and cost

Pacific Health Research & Education Institute

Reducing Cost-related Medication Nonadherence in Person with Diabetes
Tseng, Chien-Wen  Department of Family Medicine and Community Health
Dr. Tseng will be responsible for the study design, IRB applications, overseeing the claims analyses to measure medication adherence and drug cost, designing the physician survey instrument, data analyses, publishing manuscripts, and disseminating study findings.

Tri-Isle Resource Conservation & Dev Council

Natural Resources Management in Kapunakea Preserve, West Maui
Morden, Clifford  W  Department of Botany
Conduct research and monitoring of rare native plants and conduct management and control of invasive species in the Kapunakea Preserve in West Maui.

University of Hawaii Foundation

Philosophy for Children Research Associate
Jackson, Thomas  E  Department of Philosophy
The Philosophy for Children Research Associate will gather data and conduct research on the effectiveness of a proposed "Philosopher in Residence" initiative at two public schools in Hawaii.

World Turtle Trust

Hawaii Island Hawksbill Turtle Recovery Project
Duffy, David  C  Department of Botany
Manage and protect the endangered Hawksbill sea turtle by projecting and restoring its nesting habitat on the Big Island.

Mainland- Business and Other

Gilead Sciences, Inc

A Multi-center, Randomized, Double-Blind, Double-Dummy, Phase 3 Study of the Safety and Efficacy of Ritonavir-Boosted Elvitegravir (EVG/r) Versus Ralte
Shikuma, Cecilia  M  Department of Medicine
To test experimental HIV drug therapy on human subjects.

Jet Propulsion Lab

Cassini Solstice Mission
Owen, Tobias  Institute for Astronomy
To study seasonal and other long-term temporal changes on Saturn and its moons, from northern winter solstice to northern summer solstice. The mission extension will allow for continued observations of Saturn's rings and the magnetic bubble around the planet known as the magnetosphere.
Gifts, Grants, and Contracts for September 2011

Research

Mainland- Business and Other

Jet Propulsion Lab  
**A Spitzer Proper Motion Survey of the Pleiades**  
Kraus, Adam L  Institute for Astronomy  
This program will use new observations with Spitzer Space Telescope, combined with existing data, to identify the lowest-mass members of the Pleiades cluster based on their proper motions.

Jet Propulsion Lab  
**Cosmic Flows**  
Tully, R Brent  Institute for Astronomy  
Mid infrared images of galaxies are gathered from observations with Spitzer Space Telescope Area photometry of the images results in measures of the luminosities of the galaxies. There is a correlation between galaxy luminosities and rate of rotation that can be used to measure galaxy distances.

National Geographic Television  
**Assessing Deep-Sea Biodiversity and Community Structure**  
Drazen, Jeffrey C  Department of Oceanography  
Baited cameras will be deployed to the seafloor off the Island of Hawaii to film deep-sea animals

National Geographic Television  
**Marine Investigation of Lo'ihi Seamount and Deep Sea Precious Corals**  
Wiltshire, John C  Hawaii Undersea Research Laboratory  
To conduct submersible research on Lo'ihi Seamount and precious coral resources off the Island of Hawaii

National Renewable Energy Lab  
**System Contaminant Testing and Analysis for Proton Exchange Membrane Fuel Cells**  
St-Pierre, Jean  Hawaii Natural Energy Institute  
Testing and analysis to examine system contaminants affecting catalyst kinetics and membrane/ionomer conductivity.

SWCA Environmental Consultants  
**Survey and Eradication of High-Priority Species along State Roads**  
Duffy, David C  Department of Botany  
Perform survey of priority invasive and native plant species along Oahu roadways, report the data via GIS database, and conduct control of target invasive species.

Mainland- Health Organizations

Kaiser Foundation Research Institute  
**Comparative Effectiveness of Diabetes Prevention Strategies in Women with GDM**  
Albright, Cheryl L  UH Cancer Center  
The main goal of this study is to test the effectiveness of diabetes prevention for women with gestational diabetes (GDM) to control obesity, hyperglycemia, hypertension, and depression. Dr. Albright will participate in the development, implementation, and ongoing management of diet/exercise intervention.
Gifts, Grants, and Contracts for September 2011

Research

Mainland- Health Organizations

Klein Buendel, Inc. $39,000
A Home Exercise Program for Women with Infants and Young Children
Albright, Cheryl L. UH Cancer Center
This Phase II project will develop and test an interactive web-enabled multimedia program, "Choose to Move", that will feature 10-minute videos demonstrating yoga, aerobics, and strengthening exercises for mothers of infants 8 weeks to 8 months of age.

Pediatric Dengue Vaccine Initiative $32,166
Dengue ELISA-Based Assay
Wang, Wei-Kung Dept of Trop Med, Medical Microbiology and Pharmacology
With the availability of human monoclonal antibodies derived from subjects following dengue virus infection, it is possible to identify epitope(s) of neutralizing antibodies. An ELISA based assay thus developed for detecting protective neutralizing antibodies in polyclonal dengue antisera is critical for dengue vaccines and evaluation.

Mainland- Non-Profit Organizations

Consortium for Ocean Leadership $11,999
Participation in IODP Cruise #330
Mahoney, John Department of Geology and Geophysics
Participation in IODP scientific expedition #330.

Hill (Joseph H) Memorial Foundation, Inc. $1,100
Enhancing Protea Flowering in Hawaii
Criley, Richard A Department of Tropical Plant and Soil Sciences
In year 1, protea bushes are cut back to induce uniform shoot return. In year 2, 3-flush shoots are treated with cytokinin to induce flower initiation. Flowering should occur in late year 2 or early year 3.

Trivedi Foundation $48,379
Mouse Immune Models for Treatment of Diabetic Ulcers
Csiszar, Katalin Department of Complementary and Alternative Medicine
Diabetic and non-diabetic MPZL3 mutant mice will be exposed to a brief biofield treatment and its effect on spontaneous and diabetic wound healing will be investigated.

University Corporation for Atmospheric Research $35,484
Okeanos ROV Research Cruise
Bingham, Brian S Department of Mechanical Engineering
This project would support one graduate students from the University of Hawaii at Manoa to participate in the upcoming research expedition on the R/V Okeanos Explorer.

University Corporation for Atmospheric Research $49,800
Okeanos ROV Research Cruise
Bingham, Brian S Department of Mechanical Engineering
This project would support one graduate students from the University of Hawaii at Manoa to participate in the upcoming research expedition on the R/V Okeanos Explorer.
Gifts, Grants, and Contracts for September 2011

Research

National Aeronautics and Space Administration

National Aeronautics & Space Administration  $45,000
Support Services, Maintenance and Calibration of the TLRS-4 System
O'gara, Daniel J Institute for Astronomy
To continue the history of Haleakala as one of two fixed, well-defined geometric reference points in NASA's tectonic motion data solution.

National Aeronautics & Space Administration  $309,571
The NASA Infrared Telescope Facility: Mission Support and Solar System Observations
Tokunaga, Alan Institute for Astronomy
We propose to provide NASA with observations and research data aimed at providing support of spacecraft missions and basic research in support of the Planetary Astronomy program.

National Aeronautics & Space Administration  $13,000
Flame Design: A Novel Approach to Clean Efficient Diffusion Flames
Chao, Beei-Huan Department of Mechanical Engineering
Study the mechanisms that can be used to control diffusion flames such that the flames are strong and soot free. Applying these technologies, clean and efficient diffusion flames can be designed to reduce fuel consumption and pollutants generation in practical combustion devices.

National Aeronautics & Space Administration  $148,466
Integrating MESSENGER Data to Investigate the Origin of Mercury's Intercrater and Smooth Plains Deposits
Gillis-Davis, Jeffrey Hawaii Institute of Geophysics and Planetology
The proposed work will investigate the origin of Mercury's Smooth plains and intercrater plains using data from the Mercury Surface, Space Environment, Geochemistry, and ranging (MESSENGER) mission. The main tasks of the proposal include; create a prioritized list of geologic targets, and integrate X-ray, gamma-ray, neutron, and spectral data to map these two units.

National Aeronautics & Space Administration  $65,000
Regional Planetary Image Center
Hawke, Bernard Ray Hawaii Institute of Geophysics and Planetology
This is a proposal for the continued support of the Pacific Regional Planetary Image Facility at the University of Hawaii. Continued support is needed for the development and operation of the center

National Aeronautics & Space Administration  $113,000
Space Weathering in the Inner Solar System
Lucey, Paul Hawaii Institute of Geophysics and Planetology
The project will derive information about planets from data collected from spacecraft.

National Aeronautics & Space Administration  $75,000
Co-investigator Support for the LOLA Experiment
Lucey, Paul Hawaii Institute of Geophysics and Planetology
The investigators will use data from the Laser Orbiter Lunar Altimeter to conduct scientific studies regarding the Moon.

National Aeronautics & Space Administration  $41,000
Iron, Opaque, and Maturity Maps of Mercury's Surface from Multispectral Images
Riner, Miriam A Hawaii Institute of Geophysics and Planetology
We propose to apply a new spectral model to multispectral images of Mercury to constrain the surface composition and effects of exposure to the space environment (space weathering).
Gifts, Grants, and Contracts for September 2011

Research

National Science Foundation

National Science Foundation $295,363

Patterning of Cellular Differentiation by Lateral Inhibition in a Filamentous Cyanobacterium
Callahan, Sean M Department of Microbiology
Characterize inhibitors of cellular differentiation involved in patterning of cellular differentiation.

National Science Foundation $216,102

Observations of Near-Earth Asteroids
Tholen, David J Institute for Astronomy
We are proposing to further improve our astrometric accuracy by implementing the use of a new reference catalog, which corrects some of the problems with those encountered with the previous one used.

National Science Foundation $210,314

Collaborative Research: The Role of Sponges in the Coastal Nitrogen Cycle
Popp, Brian N Department of Geology and Geophysics
We will attempt to quantify the role of sponge-hosted microbain nitrogen transformation in mass balances for representative coral reef and adjacent coastal environments.

National Science Foundation $101,364

Collaborative Research: Iron Regulation of the Food Quality of Phytoplankton in Acidified Eastern Boundary Upwelling Systems.
Bidigare, Robert R Hawaii Institute of Marine Biology
This will provide critical insights to the effects of extreme ocean acidification on the comparative food quality of the future phytoplankton communities in the Eastern boundary.

National Science Foundation $269,879

Carbon Substitution and Sequestration (CarbSS)
Antal, Michael J JR Hawaii Natural Energy Institute
Four UH students (two per year) will receive training at UH and at the Norwegian University of Science and Technology in the use of equipment and instruments for the study of biocarbon production and utilization.

National Science Foundation $22,968

EAGER Collaborative Research: Optimizing RNA Binding and Detection for Use in the Capillary Waveguide Biosensor ESP Module for Automated, In Situ Microbial Process Studies
Kemp, Paul Department of Oceanography
Optimize hybridization protocols to increase the dynamic range of the Capillary Waveguide Biosensor, a sensor platform for the MBARI Environmental Sample Processor. Work includes optimization of temperature and other hybridization conditions, and signal amplification through improved probe design.
## Gifts, Grants, and Contracts for September 2011

<table>
<thead>
<tr>
<th>Grant Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Collaborative Research: Downstream Impacts of the South Pacific Tropical Water</td>
<td>$439,893</td>
</tr>
<tr>
<td>Qu, Tangdong Department of Oceanography</td>
<td></td>
</tr>
<tr>
<td>We proposed a study that focuses on the variability and downstream impacts of the South Pacific Tropical Water, using available observations and results from high-resolution GCMs.</td>
<td></td>
</tr>
<tr>
<td>Optimal Geometric Control for the Contrast Imaging Problem in Nuclear Magnetic Resonance</td>
<td>$199,984</td>
</tr>
<tr>
<td>Chyba, Monique Department of Mathematics</td>
<td></td>
</tr>
<tr>
<td>The primary objective of the proposed research is to apply techniques of geometric optimal control theory to the control of the spin dynamics by magnetic fields in Nuclear Magnetic Resonance.</td>
<td></td>
</tr>
<tr>
<td>Collaborative Research: Controls on Hadal Megafaunal Community Structure: a Systematic Examination of Pressure, Food Supply, and Topography</td>
<td>$402,415</td>
</tr>
<tr>
<td>Drazen, Jeffrey C Department of Oceanography</td>
<td></td>
</tr>
<tr>
<td>This proposal will study the animals living in the world's deepest habitats, the trenches. We will describe the distributions and try to explain the patterns observed based on food supply, bathymetry and physiological adaptations to pressure.</td>
<td></td>
</tr>
<tr>
<td>Application of Transcriptomics to Understanding Mechanisms of Stress Response and Toxin Production in Microbes in Marine Tropical Waters</td>
<td>$241,256</td>
</tr>
<tr>
<td>Bienfang, Paul Kenneth Department of Oceanography</td>
<td></td>
</tr>
<tr>
<td>The proposed work will use the techniques of transcriptomics to help determine the ways in which environmental variables affect: (a) the production of ciguatoxin by dinoflagellates in the genus Gambierdiscus; and (b) the inactivation by sunlight of the pathogenic bacteria Staphylococcus aureus and the fecal indicator Enterrococcus.</td>
<td></td>
</tr>
<tr>
<td>Center for Microbial Oceanography: Research and Education (C-MORE)</td>
<td>$4,000,000</td>
</tr>
<tr>
<td>Karl, David M. Department of Oceanography</td>
<td></td>
</tr>
<tr>
<td>Operations at the Center for Microbial Oceanography: Research and Education will be extended for an additional 5-year period (2011-2016). We will conduct research, create and disseminate knowledge, provide unique educational opportunities, conduct research and enhance the diversity of the scientific workforce.</td>
<td></td>
</tr>
<tr>
<td>I/UCRC Center for Bioenergy Research and Development</td>
<td>$2,000</td>
</tr>
<tr>
<td>Turn, Scott Q Hawaii Natural Energy Institute</td>
<td></td>
</tr>
<tr>
<td>UH will participate in the development of novel catalysts for producing liquid biofuels from synthesis gas. UH will characterize contaminants in the synthesis gas that affect catalysts and supply synthesis gas samples.</td>

Gifts, Grants, and Contracts for September 2011

Research

National Science Foundation

National Science Foundation $15,111
  RREADI3 - TCS Eruption Dating Readiness and Decadal Magmatic Timing Studies for the EPR ISS
  Rubin, Kenneth H  Department of Geology and Geophysics
  Supplementary request to determine high resolution ages of a vary young submarine lava flow at axial volcano.

National Science Foundation $77,877
  Collaborative Research: US-URUGUAY-BRAZIL: IRES AMPLIFIED: Ampullariidae Model using Phylogeography, Laboratory Integration with Field Investigations into Ecology and Diversity
  Hayes, Kenneth A  Pacific Biosciences Research Center
  This is a collaborative project to provide students in Hawaii with international research experiences with host scientists in Uruguay and Brazil. They will primarily use apple snail systems to develop independent projects with host scientists for 6 weeks each year.

National Science Foundation $335,000
  International Collaboration in Chemistry: Electrochemical Methods in High-Valent Palladium Chemistry
  Vicic, David  Department of Chemistry
  To develop new electrochemical methods using the higher oxidation states of palladium.

US Colleges and Universities

Alaska, University of $65,000
  Operational Support of Infrasound Station I59US of the International Monitoring System (IMS)
  Garces, Milton A  Hawaii Institute of Geophysics and Planetology
  Operate, maintain and upgrade/sustain the I59 infrasound site in Hawaii.

Alaska, University of $154,993
  Proposal for Post-Certification Activities at IMS Stations I39PW, Palau and I52GB, Diego Garcia (I39PW Palau)
  Garces, Milton A  Hawaii Institute of Geophysics and Planetology
  Continued maintenance operation for Palau and Deigo Garcia.

Alaska, University of $177,663
  Proposal for Post-Certification Activities at IMS Stations I39PW, Palau and I52GB, Diego Garcia (I52GB, Diego Garcia)
  Garces, Milton A  Hawaii Institute of Geophysics and Planetology
  Continued maintenance operation for Palau and Diego Garcia.

California Irvine, University of $150,298
  Characterization of Mutations in Unknown Genes Expressed in the Burkholderia pseudomallei Transitome
  Hoang, Tung Thanhthan  Department of Microbiology
  The goals are to identify and characterize the natural transformation system of B. pseudomallei and to develop novel molecular genetic tools for genome manipulation of B. mallei and B. pseudomallei.
Gifts, Grants, and Contracts for September 2011

Research

US Colleges and Universities

Drew, Charles R., University
RCMI Translational Research Network (RTRN)
Yanagihara, Richard Department of Pediatrics
The goal of the RTRN is to establish an infrastructure to facilitate translational research in health disparities. Hawaii will be one of the performance sites coordinated by Drew University. Drew University will send a subcontracts to UH based on the attached sub-recipient commitment form attached.

Montclair State University
Static and Shock Pressure Treatment of Synthetic Mars Basalts: Understanding the Evolution of Crustal Magnetic Anomalies
Hammer, Julia Eve Department of Geology and Geophysics
We will investigate the origin and subsequent modification of strongly magnetized Mars crust. Synthetic basalts will be subjected to increasing pressure treatments in order to evaluate the effects of static and dynamic pressure on rock magnetic properties.

Northeastern University
Cannabinergic Ligands and Drugs
Tius, Marcus A Department of Chemistry
The research is a collaborative effort in which my group is responsible for the preparation of a series of small molecules to be evaluated for various pharmacological properties.

Pittsburgh, University of
An Objective Measure of Physical Activity in the DPPOS: The Accelerometry Ancillary Study
Arakaki, Richard F Department of Medicine
Ancillary Study of the Diabetes Prevention Program Outcomes Study in which physical activity will be assessed using accelerometers. Study protocol includes initializing and downloading data from accelerometers which capture physical activity data worn by participants. Participants will be given small compensation.

Southern California, University of
Center for Dark Energy Biosphere Investigations
Cowen, James P Department of Oceanography
To participate in C-DEBI project as co-PI and coordinator of instrumentation development. Participate in cruises to Juan de Fuca Ridge flanks and North Pond, Atlantic Ocean.

Southern California, University of
Chemical Sensor Development for Microbially-relevant Scales of Concentration Gradients
Glazer, Brian Department of Oceanography
To identify and/or measure more than one chemical species in deep subsurface bioshpere which may be relevant to co-evolution of the earth and life through geologic time scales.

Southern California, University of
A Genome Wide Association Study of Prostate Cancer in African Americans
Le Marchand, Loic UH Cancer Center
To conduct a whole genome association study of prostate cancer in African Americans to identify susceptibility factors for this disease and replicate the findings in other ethnic groups in the Multiethnic Cohort Study.

Subcount: 169  Subtotal: $57,728,737
Gifts, Grants, and Contracts for September 2011

Non-Research

DA-Dept of Agriculture

Agriculture, Dept - FED

**Sustain Hawaii Conservation Alliance**
Kaneshiro, Kenneth Y

Pacific Biosciences Research Center
Sustain the Hawaii Conservation Alliance by organizing the Hawaii Conservation Conference; organizing workshops utilizing Hawaii's available research resources & publishing results; and developing efficient communication of relevant research findings to the manager's of Hawaii's natural resources.

$38,000

Agriculture, Dept - FED

**Outreach and Assistance in Tropical Pasture and Livestock Management of Pacific Islanders**

Thorne, Mark S

Department of Human Nutrition, Food and Animal Sciences

This project will provide training to Native Hawaiian and Pacific Islander ranchers and natural resource professionals of Hawaii, Guam, Northern Marianas Islands, Palau, and Federated States of Micronesia in sustainable pasture and livestock management in tropical systems.

$337,841

Agriculture, Dept - FED

**University of Hawaii Extension IPM 2010**

Hara, Arnold H

Department of Plant and Environmental Protection Sciences

the University of Hawaii Extension IPM Program encompasses education and training for extension personnel in specialized crops (floriculture, tropical fruit, macadamia nuts, vegetables) and animal agriculture and their stakeholders in Integrated Pest Management practices that reduce risk to humans and the environment.

$73,818

Agriculture, Dept - FED

**Biotechnology Outreach Program**

Wieczorek, Anna M.

Department of Tropical Plant and Soil Sciences

Improved understanding of agricultural biotechnology issues by growers, marketers, legislators and consumers.

$44,782

Agriculture, Dept - FED

**Understanding Impacts of Climate Change on Native Hawaiian and Pacific Island Communities**

Burkett, Maxine

Sea Grant College Program

the primary goal of this agreement is to establish a training symposium that will assist Native Hawaiian decision-makers and interested partners build their knowledge and understanding of climate change policy and programs and identify opportunities for enhancing adaptive capacity and cultivating important ancillary benefits such as economic development.

$18,000

Agriculture, Dept - Forest Service-FED

**Technical Assistance for Forestry, Agroforestry, and Native Plant Nurseries in the American-affiliated Pacific Islands**

Friday, James B

College of Tropical Agriculture and Human Resources

I propose to work with the USDA Forest Service to develop activities, information, and materials (e.g. workshops, web pages, videos, fact sheets, propagation protocols, resource directories) with the objective of providing technical expertise and assistance to benefit forestry, agroforestry and native plant nurseries in the American-affiliated Pacific islands.

$12,000
Gifts, Grants, and Contracts for September 2011

Non-Research

DHHS-Dept of Health and Human Services

Health & Human Svc, Dept - Ctrs for Disease Cntrl & Prvtn (CDC) $850,000
Pacific Center of Excellence in the Elimination of Disparities
Palafox, Neal A Department of Family Medicine and Community Health
Provide infrastructure and technical assistance to the Pacific populations to 1) implement the respective strategies within the comprehensive cancer plans as they relate to breast and cervical cancer 2) Work with the ISAPI population in Hawaii and 3) serve as a national resource center.

Health & Human Svc, Dept - FED $261,000
Ulua'i Laona - Helping Babies Hear
Johnson, Jean Lee Center on Disability Studies
This project will improve, enhance, and expand the universal newborn hearing screening program to meet the 1-3-6 goals and reduce loss to follow-up at each of the stages. It will expand hearing screening to preschool populations and assist with the implementation of universal newborn metabolic screening.

Health & Human Svc, Dept - Hlth Res & Svcs Adm (HRSA) $867,823
Native Hawaiian Center of Excellence 93.157
Lee, Winona Department of Native Hawaiian Health
Continue the work of the Native Hawaiian Center of Excellence in research training and development, education and cultural competence.

Health & Human Svc, Dept - Sbstnc Abuse & Mntl Hlth Svcs Adm $479,209
Hawai`i's Caring Communities Initiative
Goebert, Deborah A Department of Psychiatry
Hawai`i is proposing to implement two strategic evidence-based youth suicide prevention and early intervention projects. These projects will focus on impacting at-risk communities, as well as the statewide crisis infrastructure in Hawai`i.

Health & Human Svc, Dept - Sbstnc Abuse & Mntl Hlth Svcs Adm $479,209
Hawai`i's Caring Communities Initiative
Goebert, Deborah A Department of Psychiatry
Hawai`i is proposing to implement two strategic evidence-based youth suicide prevention and early intervention projects. These projects will focus on impacting at-risk communities, as well as the statewide crisis infrastructure in Hawai`i.

Health & Human Svc, Dept/NIH $105,741
R25T CURE Supplement
Maskarinec, Gertraud UH Cancer Center
This minority supplement will support a postdoctoral fellow in Nutritional & Behavioral Cancer Prevention in a Multietnic Population led by faculty at the Cancer Research Center of Hawaii and collaborators elsewhere at the University and health care organizations in Honolulu.

DOC-Dept of Commerce

Commerce, Dept - FED $300,000
Building the Foundation for a Hawaii State Adaptation Plan
Burkett, Maxine Sea Grant College Program
This series of symposia will bring together public officials, government agency staff, business leaders, researchers, and community members to build support for statewide, coordinated climate change preparedness and adaptation efforts.
Gifts, Grants, and Contracts for September 2011

Non-Research

DOC-Dept of Commerce

Commerce, Dept - Natl Oceanic & Atmospheric Adm (NOAA) $2,314,000

Developing the Pacific Islands Ocean Observing System (PacIOOS)

Taylor, Brian School of Ocean and Earth Science and Technology

Maintenance and continued development of the instrumentation, modeling, stakeholder engagement, and data management systems of the Pacific Islands Ocean Observing System PacIOOS, a regional component of the national Integrated Ocean Observing System (IOOS).

Commerce, Dept/NOAA - National Ocean Service (NOS) $100,000

Hawaii Coral Reef Initiative, Phase 3

Hamnett, Michael P Social Science Research Institute

Promote research finding from HCRI FY2010 projects, conduct outreach and education, update website, and implement the new K-2 marine science curriculum.

DOD-Department of Defense

Defense, Dept - Navy $42,783

Fiber Connectivity to VLBA on Mauna Kea

Lassner, David K Information Technology Services

Provide fiber connectivity to VLBA facility on Mauna Kea

Defense, Dept - Office of Naval Research $507,000

Research Vessel Operations and At-Sea Technical Services, University of Hawaii 2009-2011

Shor, Alexander N School of Ocean and Earth Science and Technology

To provide ONR with ship time and technical support in 2009 on R/V Kilo Moana.

DOE-Dept of Energy

Energy, Dept - FED $299,693

Readiness and Planning for Plug-In Electric Vehicles and Charging Infrastructure

Sakamoto, Clyde M Chancellor, University of Hawaii Maui College

A planning and policy development grant which will prepare UH Maui College, Maui County, and, more broadly, the State of Hawaii for a proliferation of plug-in electric vehicles and the required infrastructure.

DOI-Dept of Interior

Interior, Dept - Bureau of Land Management $24,967

Improved Wildfire Prediction Using Remote Sensing Technology on Guinea Grasslands in Hawaii

Litton, Creighton Department of Natural Resources and Environmental Management

Proposed research will develop a simple method to quickly and accurately predict real-time fuel moisture from Terra-MODIS enhanced Vegetation Index data. Accurate fuel moisture prediction will greatly improve predictions of fire ignition and spread, allowing land managers to make informed decisions on live fire training.
Gifts, Grants, and Contracts for September 2011

Non-Research

DOI-Dept of Interior

Interior, Dept - National Park Service

Support for a Coordinator for the Coordinating Group on Alien Pest Species
Duffy, David C Department of Botany
Assist the Coordinating Group on Alien Species with collaborative projects to reduce invasive species in Hawaii

Interior, Dept - National Park Service

Prepare Archaeological Overview and Assessment for National Park of American Samoa
Bayman, James Department of Anthropology
The research project is designed to assist the National Park Service with their management of archaeological resources in the National Park of American Samoa. The research is focused on developing an annotated bibliography of previous archeological studies in the park, and acquiring copies of selected documentation.

Interior, Dept - National Park Service

Support of the Hawaii-Pacific Islands Cooperative Ecosystem Studies Unit
Duffy, David C Department of Botany
Support the coordination of the Hawaii-Pacific Islands Cooperative Ecosystem Studies Unit.

Interior, Dept - National Park Service

Public History and Records Management at Hawaii Volcanoes National Park
Inglis, Kerri Social Sciences-UHH - Division Office
Establish paid internships for history students at the UHH to work with Park staff to learn principles and standards of records management that focus on archival duties, and to apply the knowledge about this body of evidence to research in public history.

Interior, Dept - U.S. Fish & Wildlife Service

Invasive Ant Strike Team: Johnston Atoll National Wildlife Refuge
Duffy, David C Department of Botany
Assist in the eradication of the invasive yellow crazy ant, which has infested approximately 11% of Johnston Atoll.

Interior, Dept - U.S. Fish & Wildlife Service

Volcano Rare Plant Facility - Clemontias
Kaneshiro, Kenneth Y Pacific Biosciences Research Center
Provide services for the collection, propagation and reintroduction to prevent extinction of six endangered PEP species.

Interior, Dept - U.S. Geological Survey

Biodiversity Research Program
Sakamoto, Clyde M Chancellor, University of Hawaii Maui College
This cooperative agreement will allow USGS to co-locate at Maui Community College and involve students, faculty and staff to participate in biodiversity research and fieldwork including the modeling of spatial data.
Gifts, Grants, and Contracts for September 2011

ED-Dept of Education

Education, Dept - FED

Kahuwai Ola: Supporting Native Hawaiian Undergraduate STEM Scholars at UH Manoa
Gomes, Lenore K Vice President for Student Affairs
Kahuwai Ola will increase the retention and graduation of Native Hawaiian undergraduate students in Science, Technology, Engineering, and Mathematics degrees, and increase their entry into graduate programs through the provision of scholarship support and the establishment of a faculty/student mentoring program.

Education, Dept - FED

Student Support Services Program (UHM)
Yoshimoto, Melven M Special Student Services
Provide academic and other support services to eligible (based on income and 1st generation college student) students enrolled at UHM to increase their retention and graduation. Foster a positive campus climate supportive of these students.

Education, Dept - FED

Upward Bound Math & Science, Yr 2
Woods, Leonard Vice Chancellor for Student Affairs-UHH

Education, Dept - FED

Hale Kanilehua Living-Learning Center Renovation
Makuakane-Lundin, Gail M Vice Chancellor for Student Affairs-UHH
Renovation of an existing facility to create a living-learning center at UH Hilo to provide a safe and supportive living-learning environment for students by successfully transitioning them into the University through first-year experience seminars and other academic/social integration experiences.

Education, Dept - FED

Waianae Program for Afterschool Literacy Support (W-PALS)
Fukuda, Kay L Student Equity, Excellence, and Diversity
W-PALS will implement an afterschool literacy program in 5 elementary schools in Waianae that emphasizes place-based educational curriculum and instructional strategies to improve student academic outcomes.

Education, Dept - FED

Kulukuluua: 5-year Development Grant
Kealiikanakeaolehaliilani, Kekuhi Chancellor, Hawaii Community College
The proposed project will (1) increase the course completion rates of Native Hawaiian students; (2) increase the number of Native Hawaiians re-enrolling and completing their degree in Hawaii Life Styles Academic Program, and (3) increase levels of student engagement for persistence and degree completion.

Education, Dept - FED

Waihonu: 2 Year Renovation Grant
Kealiikanakeaolehaliilani, Kekuhi Chancellor, Hawaii Community College
The I Ola Haloa Center for Hawaii Life Styles Program at Hawaii Community College will conduct two activities in striving to increase course completion rates: (1) Renovating Academic Community spaces, and (2) Developing iHa’akumalae for Learner Success.
Gifts, Grants, and Contracts for September 2011

Non-Research

ED-Dept of Education

Education, Dept - FED

Hui Manawa Kupono
Maglaya, Michael H

College Opportunities Program

The project will increase postsecondary access for Native Hawaiian (NIH) high school students from at-risk communities throughout Hawaii, provide financial assistance and academic support to undergraduate and graduate students at the UHM, and increase the retention and graduation rates of NIH students attending UHM.

Education, Dept - FED

PILI Project: Pacific Island Learning Initiative in Deaf Education
Stodden, Robert A

Center on Disability Studies

PILI Project is a regional program designed to prepare teachers for Hawaii and 9 Pacific jurisdictions, to reduce the severe shortage of certified teachers of deaf and hard of hearing students in Hawaii and the Pacific.

Education, Dept - FED

New Beginnings for ELL: Innovation through Technology for English Literacy and Academic Success
Kim-Rupnow, Weol Soon

Center on Disability Studies

The purpose of this proposed 5-year project is to develop, provide, and evaluate high-quality professional development (PD) activities that will result in improved academic achievement with enhanced English skills and motivation of English Language Learner (ELL) students.

Education, Dept - FED

Kako'o Ikaika: Supporting Adolescent Hawaiian Students to Achieve High Standards
Lai, Morris K

Curriculum Research and Development Group

Kako'o Ikaika is a three-year project designed to help six secondary schools with large numbers of Native Hawaiian students to achieve high standards and graduation rates. The project will help build a school-wide model that provides a multi-tiered system for literacy and behavior supports.

Education, Dept - FED

Kulia I Ka Nu'u (Strive for the Summit: Culturally Responsive, Place-based Professional Development in Science for Native Hawaiian Students
Chinn, Pauline W

Department of Curriculum Studies

Professional development project will provide EDCS 433 and EDCS 450, (6 credits) curriculum courses for in-service K-12 science teachers. Courses will provide culturally relevant, place and standards-based content and pedagogy and culture-science immersions led by Native Hawaiian instructors.

Education, Dept - FED

Hulili-A Collaborative Grant Between UH-Manoa and Windward Community College to Improve the Transfer and Success Rates of Native Hawaiian Students
Eschenberg, Ardis R

Chancellor, Windward Community College

UH Manoa (UHM) and Windward Community College (WCC) will collaborate to increase the number of Native Hawaiian (NH) students at WCC who transfer to UHM; number of NH students who receive a Bachelor's degree at UHM; and professional development opportunities for transfer students and NH serving faculty and at

Education, Dept - FED

Hale Ao Renovation and Hawaiian Studies Curriculum Expansion
Moore, Peter

Chancellor, Windward Community College

Strengthening Student Engagement through increased facility space to house Hawaiian Studies courses and through the creation of an Associate of Arts degree in Hawaiian Studies and expanded curriculum. The initiatives are focused on increasing the success rates of WCC students.
Gifts, Grants, and Contracts for September 2011

Non-Research

ED-Dept of Education

Education, Dept - FED $800,000
Kakoo Koolau - Strengthening Student and Institutional Engagement at Windward Community College
Eschenberg, Ardis R Chancellor, Windward Community College
Strengthening institutional engagement through more relevant and accessible academic offerings; and strengtheining student engagement through improved access, early intervention, and innovative student support services. Both activities focus on increasing student persistence, retention, and graduation or transfer.

Education, Dept - FED $369,027
Student Support Services Program
Inouye, Roy Owen Chancellor, Windward Community College
Provide counseling, academic advising, tutoring, supplemental grant aid, study skills workshops, computer lab, cultural activities, and other services to disadvantaged college students (low-income, first generation, and/or disabled individuals as defined by U.S. Department of Education).

Education, Dept - FED $242,250
Windward Community College Upward Bound Program
Gillis-Davis, Lisa C Chancellor, Windward Community College
Windward Upward Bound will provide opportunities for 50 low-income/first generation college potential public school students to receive academic support, career guidance, college planning, and summer residential college experience.

Education, Dept - FED $426,991
Maui County Educational Opportunity Center
Tagomori, Alvin R Chancellor, University of Hawaii Maui College
Provide college access services-career exploration, college and financial aid information and application assistance to predominantly low-income, first generation Maui County residents.

Education, Dept - FED $366,766
Maui County Upward Bound Program
Tagomori, Alvin R Chancellor, University of Hawaii Maui College
the Upward Bound Program affords Maui County secondary students who are economically disadvantaged and have a "high academic risk for failure" the opportunity to acquire the basic skills and information necessary for enrolling and succeeding in postsecondary educational programs.

Education, Dept - FED $799,989
Native Hawaiian Serving Institution: Increase Native Hawaiian Success at University of Hawaii Maui College
McKee, John Chancellor, University of Hawaii Maui College
Increase Native Hawaiian Success by increasing retention, persistence and graduation rates by providing peer tutoring and mentoring in a new Student Success Center, mandating a First and Second Year Experience for cohort participants and developing an Associate in Arts degree with an emphasis on Hawaiian Studies.

Education, Dept - FED $287,825
Leeward Community College - Upward Bound Math/Science; 2007-2012
Manaseri, Christopher B Chancellor, Leeward Community College
Provide college preparatory services for high school youth. Program's purpose is to increase academic performance and college going rates in low income and first generation students.
Gifts, Grants, and Contracts for September 2011

Non-Research

ED-Dept of Education

Education, Dept - FED

TRIO Student Support Services
Furuno, Nora M
Chancellor, Kapiolani Community College
Provide services to low income, first generation and/or students with disabilities to persist, remain in good academic standing, graduate and graduate and transfer to a four year educational institution.

Education, Dept - FED

Title III, Strengthening a New Ecology of Engaged Teaching and Learning for student Success
Richards, Leon
Chancellor, Kapiolani Community College
Comprehensive integration of research-based best practices in student support and high impact practices in student learning across the College's continuum of developmental education to degree-applicable course work, associate and baccalaureate degree completion.

Education, Dept - FED

Student Support Services (TRIO)
Matsui, Sandra Y
Chancellor, Honolulu Community College
Purpose: To increase the college persistence, graduation and transfer rate of low-income, first generation college students and students with disabilities. Services: direct student support, tutoring, counseling, instruction, grant aid.

Education, Dept - FED

Halaulani
Keanikanakaoleohaililani, Kekuhi
Chancellor, Hawaii Community College
The grant will conduct three activities to improve Native Hawaiian transfer rates: (1) Strengthening Student Transfer Success at Hawaii Community College; (2) Bridging the Hawaii Community College and the University of

Education, Dept - FED

Creating a Mobile High-Touch, High-Tech Learning Environment: A Program to Promote Academic & Psychosocial Engagement & to Increase Participation STEM Disciplines
Ledward, Margaret W
Chancellor, University of Hawaii at West Oahu
This proposal addresses the activities that UHWO can implement to increase college success as measured by improving retention and graduate rates. It also aims to increase access to higher education by increasing opportunities for students to participate successfully in STEM classes and disciplines. UHWO will develop a high-touch mobile learning environment.

Education, Dept - FED

Student Support Services Program
Woods, Leonard
Vice Chancellor for Student Affairs-UHH
Provide assistance to students to ensure success in attaining degrees at institutions of higher education

Education, Dept - FED

Hanakahi Student Success Programs
Makuakane-Lundin, Gail M
Vice Chancellor for Student Affairs-UHH
Increases in Native Hawaiian student success, retention and completion; increases in the level of engagement of students in their college educational experience; improvements among students in the attitudes, knowledge and skills associated with effective leadership; and improvements in Hawaiian language teaching and student learning.
Gifts, Grants, and Contracts for September 2011
